On-Time Delivery	ERP & Digital Transform	Complex Integrations	DevOps & Infrastructure
3-MO. SCOPE IN 2-3 WEEKS (AGILE)	900+ MODULES & 16+ UPGRADES	SAP, SFA, 7 GATEWAYS (1-MO. SPRINTS)	300+ LIVE DEPLOYMENTS (CI/CD)

EXECUTIVE SUMMARY

Results-driven Senior Project Manager and Technology Lead with 9+ years of professional experience directing software engineering teams, enterprise digital transformations, and full-lifecycle software delivery. Proven track record leading cross-functional teams of software engineers, Odoo developers, business analysts, QA, and DevOps specialists to deliver secure, scalable, and on-time technology solutions. Certified Odoo Consultant with deep expertise in ERP implementation lifecycles, business process modeling, system architecture, API/third-party platform integrations (SAP, mobile SFA, payment gateways), and cloud infrastructure. Established high-efficiency delivery governance compressing 3-month project scopes into 2–3 weeks with near-100% first-pass UAT acceptance via the Agentic E3 Framework. Adept at translating organizational business objectives into technical roadmaps, identifying and mitigating delivery risks, and managing stakeholder expectations across 85+ global and domestic enterprise projects.

CORE TECHNICAL & PROJECT LEADERSHIP COMPETENCIES

Project & Delivery Management: Agile/Scrum, sprint planning, 6-milestone delivery governance, risk management & mitigation, resource allocation, UAT sign-off, SDLC management, on-time delivery KPIs.

Software Architecture & Code Quality: System architecture, modular design patterns, code reviews, coding standards, database design (PostgreSQL/MySQL), API design (REST, JSON-RPC, XML-RPC, Webhooks).

ERP & Odoo Technology Leadership: End-to-end ERP implementation lifecycle, 900+ custom modules, Odoo Studio, configuration, multi-version database upgrades (v13 to v19) with historical data retention.

Enterprise System Integrations: Bidirectional enterprise connectors (SAP ERP, third-party mobile SFA, WMS, legacy databases), international payment gateways (7 NZ/AUS gateways in 1 month), message queues.

Infrastructure, Security & DevOps: Docker containerization, CI/CD pipelines, Bash automation, Linux/Windows Server (AD/DNS/IIS), Nginx worker isolation, access control, disaster recovery, data protection.

Team Mentorship & Governance: Technical hiring & evaluation, engineer mentorship, performance appraisals, technical documentation, version control (Git), release and change management.

KEY PROJECT DELIVERY & TECHNICAL MILESTONES

- **Enterprise SAP Bidirectional Integration (Delivered in 1 Month):** Managed and led the technical delivery of an end-to-end integration between Odoo ERP and SAP enterprise software. Synchronized customer masters, sales orders, delivery fulfillments, and payments with automated error handling and logging within a 1-month milestone.
- **7 NZ & AUS Payment Gateways (1-Month Delivery Sprint):** Directed the development, integration, and certification of 7 distinct New Zealand and Australian payment gateways and BNPL platforms within a single 1-month milestone. Automated invoice reconciliation, webhooks, and PCI-DSS compliance.
- **Hyper-Velocity Delivery Framework (3-Month Scope in 2–3 Weeks):** Established a structured project governance framework combining modular architecture, automated test suites, and local AI agent workflows, cutting project delivery cycles by 75% while maintaining near-zero defect escape rates.
- **Historical Data & Schema Retention in ERP Migrations:** Led 16+ major multi-version database upgrades (Odoo 13 to 19). Developed an AST-based schema extraction strategy to retain all historical custom fields, financial ledger records, and audit reports while retiring legacy technical debt.
- **Third-Party Mobile SFA Integration for FMCG Manufacturing:** Led the integration of an external mobile Sales Force Automation system with Odoo Enterprise for a leading FMCG manufacturer. Managed real-time bulk order fetching, stock reservation, and automated delivery order creation.
- **Infrastructure Automation for 300+ Live Deployments:** Designed Docker and Bash deployment pipelines managing 300+ live database instances, reducing deployment onboarding time by 85% and ensuring high availability.
- **Multichannel E-Commerce & Marketplace Platforms:** Managed real-time API sync connecting ERP with international e-commerce channels (Kogan, Tradevine). Automated catalog mapping, inventory sync, and order fulfillment webhooks.
- **Universal Odoo Database Model Context Protocol (MCP) Server:** Led development of an enterprise MCP server exposing database schemas and models to AI tools for automated schema inspection, task execution, and system modernization.

LEADERSHIP, PROJECT GOVERNANCE & EXPERIENCE

NSRSHISHIR.GITHUB.IO/NSRSHISHIR

PROFESSIONAL EXPERIENCE & PROJECT LEADERSHIP HISTORY

Head of Technology & Technical Project Lead

Feb 2026 – Present

Metamorphosis Ltd. | Dhaka, Bangladesh (Official Odoo Silver Partner)

- **Technology Direction & Delivery Management:** Directs software engineering teams, overseeing the design, development, testing, deployment, and maintenance of enterprise technology solutions for 85+ global and domestic clients.
- **Project Governance & On-Time Delivery:** Translates business requirements into technical architectures and practical project plans. Monitors timelines, resource allocation, dependencies, and deliverables to ensure in-time project delivery.
- **Architecture & Code Quality Assurance:** Conducts system architecture reviews, database designs, API specifications, and code reviews. Enforces coding standards, security guidelines, and the Agentic E3 Framework to minimize technical debt.
- **High-Impact Integration Delivery:** Managed delivery of critical integrations on aggressive timelines, including an end-to-end SAP ERP sync (orders, customers, deliveries, payments) in 1 month, and 7 NZ/AUS payment gateways in a 1-month milestone.
- **Team Mentorship & Capability Building:** Mentors software engineers, functional consultants, and QA staff. Evaluates technical performance, leads knowledge-sharing sessions, and directs technical recruitment.
- **Infrastructure & Worker Isolation:** Configured Nginx reverse proxy worker isolation to separate heavy external API sync and e-commerce traffic from internal administrative back-office Odoo workers, eliminating system downtime.

Sr. Systems Engineer & DevOps Lead

Oct 2023 – Jan 2026

Metamorphosis Ltd. | Dhaka, Bangladesh

- **Infrastructure Planning & DevOps Automation:** Designed automated Docker and Bash deployment pipelines managing 300+ live instances, reducing client onboarding time by 85% and ensuring high system stability and reliability.
- **Marketplace & Enterprise SFA Integrations:** Led real-time sync modules connecting ERP to international e-commerce channels (Kogan, Tradevine, BNPL) and mobile SFA backends. Built automated reconciliation scripts to prevent data drift.
- **Technical Standards & Release Management:** Maintained version control (Git), release management, change management, and automated testing pipelines across production environments.

Full Stack Developer & Module Lead

2022 – Sep 2023

Metamorphosis Ltd. | Dhaka, Bangladesh

- **Business Requirement Translation:** Hand-coded hundreds of custom Odoo modules matching client operational requirements, business process automations, dynamic reporting, and portal features.
- **Payment Gateways & Database Optimization:** Built secure payment gateway integrations (cards, mobile banking) and optimized complex multi-table PostgreSQL queries and indexing for high-volume transactions.

Software Engineer & Systems Specialist

2020 – 2021

MetaKave | Dhaka, Bangladesh

- **Application Development & Mobile APIs:** Engineered backend web services and REST endpoints for Magento 2+ e-commerce platforms connected to mobile apps. Managed cloud server environments and Nginx SSL reverse proxies.

IT Executive

Jun 2017 – Sep 2019

Aptech Industries | Dhaka, Bangladesh

- **Enterprise IT & Server Administration:** Managed enterprise IT operations, Windows Server administration (Active Directory, DNS, IIS, Group Policy up to 2019), network security, disaster recovery, and infrastructure deployments.

EDUCATION, CERTIFICATIONS & RESEARCH

Certified Odoo Consultant
Metamorphosis Ltd. (Official Odoo Silver Partner). Extensive expertise in Odoo standard architecture, ORM, Studio, configuration, and ERP implementation lifecycles.

Master of Information Technology (MIT)
Jahangirnagar University (2018 – 2019). Focus on Enterprise Software Systems, Advanced Database Management, and Distributed Computing.

Bachelor of Science (B.Sc)
Shahjalal University of Science and Technology (SUST). 1st Major in Mathematics, 2nd Major in Computer Science & Engineering (CSE).

IEEE Research Author (2021)
Published paper on data processing optimization in Hadoop MapReduce, introducing the IMC algorithm (65% efficiency gain). Applied distributed principles to enterprise database scale.
