Executive Summary

Strategic **Odoo Architect & Full Stack Lead** with a proven history of scaling complex ecosystems for **82+ global clients**. Expert at bridging the gap between business requirements and high-performance solutions across **Odoo (v12-19)**, **MERN**, and **LAMP** stacks. Specialized in **Tax & Compliance Integrations (ZATCA Phase 2, NBR/DataSoft)**, **Odoo Version Upgrades (12+ projects)**, and **Worldwide Payment Gateway Exposure**, having integrated 13+ secure global providers (BNPL, Credit, Mobile) into ERP workflows. Managed **125+ total projects**, driving operational ROI through advanced API design and seamless system synchronization.

Professional Leadership

Team Lead & Sr. Software Architect

Oct 2024 - Present

Metamorphosis Ltd., Bangladesh

- Worldwide Payment Orchestration:** Engineering secure, high-volume integrations for global leaders including **Afterpay, Zip, Laybuy, Genoapay, Humm, and Gem** (NZ/Global) alongside **SSLCommerz, bKash, and Nagad** (BD).
- Regulatory & Tax Compliance:** Architected the integration of Odoo with **ZATCA Phase 2 (E-invoicing)** for Saudi Arabia and **DataSoft (NBR-approved)** software for Bangladesh.
- Advanced Odoo Upgrades:** Managed 12+ end-to-end version upgrades (v13-17, v14-18, v16-19) for both Community and Enterprise, ensuring zero data loss and 100% feature parity.
- Odoo Ecosystem Evolution:** Orchestrating 125+ total Odoo projects (v12-19), delivering custom modules that streamline finance, supply chain, and retail.
- Advanced API Integration:** Engineered 25+ robust API layers connecting Odoo with SAP, Magento, and international fintech platforms.

Sr. Odoo Systems Engineer

Oct 2023 - Sep 2024

Metamorphosis Ltd., Bangladesh

- Fintech Innovation:** Integrated **NZ Click, NZ Post**, and regional gateways into Odoo v16-18, handling complex BNPL (Buy Now Pay Later) logic.
- Infrastructure Automation:** Automated 300+ Odoo instance deployments, reducing setup time by 85% via custom shell scripting and Docker.

High-Impact Projects & Integrations

ZATCA & NBR Compliance

Architected seamless Odoo integrations with Saudi ZATCA Phase 2 (E-invoicing) and NBR-approved DataSoft accounting software.

Global BNPL Ecosystem

Integrated Afterpay, Zip, Laybuy, and Humm into Odoo for international retailers, managing complex installment and refund logic.

MERN + Odoo Headless eCommerce

Built a high-performance React frontend for Odoo v17 using REST APIs, enabling sub-second page loads and mobile-first UX.

SAP & ERP Middleware (LAMP)

Designed a Laravel-based bridge between Odoo and SAP for a major multinational, synchronizing 10k+ daily transactions securely.

Technical Competencies & Strategy

- **API-First Design:** Specialized in REST/GraphQL endpoints for multi-system enterprise synchronization.
- **MERN/LAMP Proficiency:** Building modern reactive UIs and maintaining robust legacy enterprise backends.
- **Data Integrity:** Expert in PostgreSQL query optimization and ACID compliance for high-traffic environments.
- **Security & Access:** Implementing advanced record rules, OAuth2, and SSL for multi-tenant ERP safety.
- **Cloud Infrastructure:** AWS management and CI/CD automation for Odoo.sh and staging-to-prod pipelines.
- **Open Source R&D:** Active GitHub contributor to Odoo core modules (stock_account, l10n_bd).

Research & Earlier Career Impact

Performance Enhancement of Hadoop MapReduce

IEEE (2021)

Developed the IMC algorithm, achieving a **65% efficiency gain** in data processing. Applied these principles to optimize large-scale Odoo database operations.

Software Engineer & Server Specialist | MetaKave

2020 - 2021

Developed full-stack LAMP applications and managed AWS security for high-traffic enterprise platforms.

Executive (IT) | Big Boss Corporation

2017 - 2019

Managed IT infrastructure for 200+ users, reporting to the Board for strategic technology decisions.
